Union Services in Park next Sunday evening 7.45 p m, weather permitting, otherwise, at Presbyterian church.

Communion Services at the Presbyterian Church on the 4th Sunday in August. All members are requested to be present.

Mercer and Boyle counties sent delegates to Louisville instructed for the county unit bill while Lincoln and Garrard went uninstructed.

Judge E. C. O'Rear, republican candidate for Governor of Kentucky opened his campaign in a speech at Elizabethtown Monday afternoon and tried mightily hard to make right the statement he made regarding Senator Bradley's election to the U. S. Senate, by saying that he considered every man innocent until proven guilty and stated that democrats had elected the Senator. Now don't you think that this in itself is pretty strong evidence?

Milk High and Scarce.

At Paris and Winchester because of the continued dry weather the burning up of the grass and scarcity of provender, and the consequent falling off of the milk production, milk is selling at thirty cents per gallon.

Mule Colt Sold.

The Farmers Outlook says: "A Pennsylvania man was here and bought a car load of horses and suckling mule colts. The mules brought from \$50 to \$80. He did not buy any choice mules from the fact that he would not pay the price. Farmers are asking from \$100 to \$125 for the best mule colts."

Sues For \$25,000 Son's Death.

O. P. Stone, as administrator of Raymond Edward Stone, filed suit in the Fayette Circuit Court, Tuesday, against the Lexington Railway Company for damages in the sum of \$25,000 for the death of Raymond E. Stone which occurred on May 29, 1911, at Lexington and High street, Lexington, after he had been struck by a car.

Good Time to work Roads.

It strikes us that the present is a splendid time to work the county roads. Nothing much can be done on the farm just at this time, and this is the most propitious time of the year to work roads they will then settle and be in better condition to withstand the wet weather and the heavy hauling incident to the early fall and winter months.

Holding Their Annual Wrangle.

Just about this time every year a remark comes from either the press at Danville or Somerset anent the moving of the Q. & C. division precipitates an argument which waxes exceedingly warm and usually winds up in a draw. This year Louis Landrum and Cecil Williams are conducting the hostilities and are printing long articles in regard to the matter. We have no idea what will be the ultimate outcome of the matter, but at present Danville seems to have the best of it as they "have the goods."

B. F. Patton's Sale.

Mr. B. F. Patton who lives near Bryantville is advertising a sale of his farm and stock on Wednesday August 23rd. The land to be sold consists of 477 acres and is in two tracts, and is susceptible of division into several smaller farms, each with dwellings and suitable outbuildings, and is one of the most desirable and best located pieces of property in the county. The stock consists of sheep, cattle, horses and mules, both fancy and work stock and a nice lot of ponies. The sale has been extensively advertised and a large crowd will be in attendance.

Negro Cut.

On last Thursday night Fred Emerson and Sam Davis, two colored citizens of the "chute" sat up until the wee sma hours discussing the fair to be held the following day, they were reviving their occasionally drooping spirits with an occasional drink when they became involved in an argument during the progress of which Davis drew his knife and proceeded to work on "Pottsy" as Emerson is known. The cut negro is in a dangerous condition, and his assailant surrendered to the officers, and is in jail.

Be Careful Of The Water.

Surrounding towns are cutting off the water supply and hoarding what little water they have left in their reservoirs to be used in case of fire. This step has never been rendered necessary in Lancaster, but unless we are a little more careful than we have been heretofore, it may become a necessity before we have sufficient rain to put more water in the lake. Be as careful as you possibly can with the water, use no more than is absolutely necessary, and let us if possible avoid the curtailing of the water privileges.

Herald Office Burned.

At 5:30 o'clock Friday morning the splendidly equipped printing plant of the Louisville Herald, located at 413 West market street Louisville was reduced to a mass of ruins by fire. The heavy machinery in the typographical and stereotyping department located on one of the upper floors crashed clear through to the basement, destroying everything in its path, linotypes, presses, in fact everything save their records were destroyed. It is thought that their loss will be fully covered by insurance. It has not been fully determined just how and where the fire originated. The Herald never missed a publication because of their calamity, their papers being issued from the printing plant of the Evening Post.

Large Land Deal In Hedgeville Vicinity.

Mr. John Spoonamore who owns the old Hutchings homestead at Hedgeville has sold that splendidly located farm to a Mr. McBeath of Wayne county for \$22,000. The farm contains 185 acres and is one of the best situated and best improved farms in the east end of Boyle county.

Mr. Sidney Dunbar who lives midway between Hedgeville and Hubble has sold his farm to another Mr. McBeath from Wayne county. The price on this property is not obtainable as there was other considerations beside monetary connected with the deal, which renders it hard to estimate the price. Mr. Dunbar has many friends in Garrard county who will be glad to know that he will continue to make his home at the old place, having reserved a room in the house for life.

Crab Orchard.

Many have been the faces of Lancaster people seen at the famous old Crab Orchard Springs this season. 'Tis a grand place to spend a week or so and to meet with pleasant people from all over the state of Kentucky and many from other parts. We have seen as many as thirty people from this town there at the same time. The place has been repaired and is in better condition than it has been for many years and Mr. and Mrs. Willis are liked by all the people who visit the place. There never was a visitor there that does not now hold in their heart a tender place for Pa and Ma Willis and the fact that they try so hard to make each and every one enjoy themselves adds to their popularity. We think that this popular place is sure to grow for the visitors have had a grand time this year, and when another summer shall have rolled around we will find the old place in better condition to take care of the pretty summer girls as well as the fashionable old maid and the dashing young widow. At present the place is crowded and people from Lancaster are still going there for a nice pleasant rest and for the good water for which Crab Orchard springs is noted all over the world.

Annual dues for Benevolent work of the Methodist church are now due from each member according to church law. Funds are payable to Mr. John Mount Treasurer. A list is published annually of all contributors in the local church directory.

Ninety per cent of membership were contributive last year.

Brother Tinder Busy

Bro. Tinder has just concluded a very successful meeting at Kirksville during which he had thirteen additions to the church. He will fill his regular pulpit here on next Sunday, and on Monday will go to Flatwoods in Madison county for a two weeks meeting. Bro. Tinder is an earnest and a very successful laborer in the Master's vineyard and his services are in constant demand.

Drought Broken.

The drought has been partially broken, rain has fallen throughout the county, not in abundance, but in sufficient quantities to revive the vegetation, and consequently the drooping spirits of the farmers. In the Nina neighborhood, where the drought has been most pronounced, there was a splendid rain Monday afternoon. The greatest cry now is for stock water, and so scarce has it become, that coupled with the prospective high price of feed, farmers are rushing their stock to market.

Another New Automobile.

Mr. W. A. Arnold is the latest Lancaster man to purchase an automobile. Since his recent sale of his livery stable he has felt the need of some kind of a conveyance and on last Friday unbeknowning to his friends, he went to Cincinnati and returned on Saturday night in a new Ford machine. We have never heard of an automobile doing hurdle jumping and we are at a loss to know how Mr. Arnold is going to use it in his fox chases.

Laundry Again In Operation.

Mr. W. A. Arnold has secured the services of a practical and efficient laundryman from Chicago and will again set the Lancaster Steam Laundry in operation. This industry has had a stormy career, bad luck seems to have followed it since it first started. But perseverance conquers all things and we sincerely hope that Mr. Arnold will make a success of it this time. The laundry does splendid work, it is a home institution, operated by home capital and home people and deserves the patronage of home people, and they should lend their efforts in trying to make of it a success.

Could Be Worse.

There is nothing so bad but what it might be worse, is a true saying. We think that we are suffering for rain, or have been, and we have, but our condition is nothing compared with the condition in other counties, even so close as Clark and Bourbon. In those counties vegetation is literally burned up, corn tasseled out two feet from the ground with not a shoot showing from it, this corn will make absolutely nothing. Tobacco is equally as bad off, not larger than a saucer and as yellow as a pumpkin. The situation is indeed alarming.

Garrard county crops, with the exception probably of one or two small areas in the north eastern part of the county has been blessed, not with abundance, but with some rain and the crops are looking reasonable well. There will be a few more showers, and some corn even if we should have no more rain for some time. Tobacco is "spotted" in some places, but the crop taken as a whole, is looking reasonably well; and it must be remembered that tobacco is but a weed and revives in a wonderful short time under the influence of a good rain. We had a splendid wheat crop, almost the best ever known in fact hay and oats excepted, we have had splendid crops and the farmer is destined we think to receive good prices for his products this fall.

To the People of Garrard Co.

I feel it my duty as a health officer of Garrard Co. to say something to you in regard to this disease "Pellagra". On the 9th. of this month I visited the Lexington Asylum in company with the board of control where I examined same twenty five patients who are suffering with this disease.

After making a careful examination of these cases and getting the clinical history of each case, and consulting the Doctors who have been treating this disease for two years or more, I came to this conclusion; that Pellagra is a non contagious disease, nor do I believe it to be an infectious disease, and I wish to add that the state board has also decided that this disease is not contagious. I believe that "Pellagra" is a condition, resulting from a diseased nervous system, aggravated by improper diet rather than a disease, the nervous system or an imbecile.

In all the cases that I examined at the Lexington Asylum I only found one that looked to be fairly well nourished, and he was a perfect blank.

I believe people of sound mind and body and who live within the purview of the laws of health are immuned against this disease. Now to ward off, not only this disease, but all contagious diseases we must live a pure clean life. Keep your premises clean and sanitary, eat pure food or none.

Our Most Dangerous Foes.

The flies are getting in their work. The scores are nearly all on their side. Day after day and hour after hour adds to the roll of the dead from Typhoid, Diarrhoea and the so called Summer Complaint all unnecessarily dead and the season for these diseases has just begun. What shall the full record be? Whose house is secure against these scourges?

There were reported to the State Board of health last year 18,387 cases and 1,818 deaths from Typhoid, 18,240 cases and 1,642 deaths from Diarrhoea diseases of infancy and childhood and 17,624 cases and 840 deaths from Dysentery and Diarrhoea in adults—56,251 cases and 4,300 deaths charged up to three diseases, three diseases that depend almost wholly upon the house fly for their transmission and propagation. In other words, no flies, no Typhoid, no flies, no Diarrhoea and Dysentery.

And what is being done towards exterminating the pest towards preventing these diseases? We would like to report the battle won, but the facts are to the contrary. The warfare upon the house fly Typhoid fly has just begun. A few more people than last year may have their house screened and a few more may be fighting them out of dining room and kitchen, but that does not mean much. The fight will never be won that way. No screening will keep them all out and no swatting will kill them all.

And, further, this is neither the wisest or easiest way. When we begin to realize the dreadful nature of the fight

that is on our hands—begin to consider it real warfare—we shall be ready to resort to strategem, and then we shall see how much easier it is to disinfect the privy or manure pile than it is to chase out and kill a sextillion of flies, the offspring of the privy and stable. And that is not all. We shall find a little chloride of lime, a little carbolic acid and a few gallons of kerosene cheaper than two months of Typhoid with its consequent disturbance of the household, its doctors' bills, and its possible funeral expenses.

We must screen against them, of course, as long as a single fly remains, and we may continue the swatting process, but the victory is to be won in backyard and stable—in the removal of filth or in disinfecting it.

"No flies, no Typhoid." Yes, and there is something more—no filth, no flies, or, no filth, no Typhoid. After all it isn't the flies we are fighting—it is the filth. The flies do not produce the disease germs. They only carry them. But in getting rid of the filth we make way with both germs and flies.—We prevent disease, we rob death of its victims, we prolong life.—Ex

"Pellagra."

So much has been said and written about this mysterious disease of late that it has become as much dreaded as the Bubonic Plague or the Asiatic Cholera. So many reports have been printed in regard to it, some of them doubtless being grossly exaggerated, that the State Board of Control of Charitable Institutions has deemed it proper to issue the following statement in regard to it, and the prevalence of it in the Institutions of the state.

"In view of the fact that many exaggerated and sensational reports relative to the presence of pellagra in the asylums for the insane of the State have been circulated, causing great uneasiness to relatives of the patients, the Board of Control feels called upon to make a few statements concerning the disease and its presence in the asylums.

"The disease, while comparatively new in this country, has existed abroad for nearly 200 years. Nothing is definitely known as to the origin or cause, and its treatment to this time has been more or less experimental or expectant. Medical authorities are agreed that the disease is not communicable, and that segregating or quarantining is therefore unnecessary. It is far more prevalent among the insane and in asylums for the insane, yet since it first appeared in our asylums, more than two years ago, we have had only seventy cases among our 4,000 patients.

"There is, in the opinion of this Board no cause for great alarm or apprehension on the part of friends and relatives of the patients in the asylums. They are receiving the very best of care, by capable physicians and trained nurses, and nothing is being left undone that will add to their comfort or aid in their restoration to health.

"This statement should suffice to relieve the minds of those who may have friends or relatives in these institutions, and to banish any anxiety they may have had in regard to them. It seems to us that if a person should become afflicted with this disease, it would be far better to allow them to stay in the institution where they may have the benefit of the professional men who are acquainted with the malady and its treatment, and therefore better qualified to treat it, rather than to bring them to their home to be placed under the care of their family physician, who in most cases, would be wholly unfamiliar with, and naturally at a loss as to how to treat it.

Sacrificed To The "Pot Hunter."

The dove season has opened, a joke isn't it, a dove season and no doves. Where are they you say? Why, gone the way of all other game in Kentucky, a sacrifice to the pot hunter. There was a time, and it was not so very long ago either, when the hemp fields of Garrard and surrounding counties were literally alive with doves, and now, why you may sit all afternoon in the shade of a hemp shock or a tree and not see one dove. Why is this will you ask. The reason is that when they were plentiful, hunters would go out in bands and vie with each other as to the number they would kill; they would go from county to county, and from field to field, wherever they could hear of doves, and would not cease their slaughter until the last sign of a dove was either killed or driven from the locality. Do you wonder then that we have a dove season without doves. Just so long as men, we will not say sportsmen, continue to kill more game than they can use, or more than is sufficient for the needs of their own family, and catch more fish than they can make use of in their own house, hold, just so long will Kentucky streams be without fish and her fields devoid of winged game.

The game laws could be made more stringent, but a rigid enforcement, of the laws now in existence would help the matter materially, and until some effort is made to enforce the existing laws it looks like folly to enact others to be treated as the ones we already have.

The press all over the state is agitating this matter with a view to remedying the existing evil, but we must confess that we are at a loss to see what remedy they will suggest or apply that will prove efficacious.

The leaders of the Democratic party from every county in the state, selected by the people of that party as their representatives, have met in convention in Louisville and formulated a platform, and an admirable one from a Democratic as well as any other stand-

point. Every plank in this platform was approved of by the candidates who have to stand upon it, the issues embodied therein are their issues, many of them suggested and warmly advocated by them, and these issues have had placed upon them the stamp of approval of the rank and file of the democracy of Kentucky. There was a friendly dissension of opinion among the delegates as to some of the planks in the platform, but their differences were harmoniously adjusted, and all is now serene within the democratic ranks and the march has begun that will terminate in November with McCreary and victory.

It will be sad news to the readers of the Lexington Herald to learn that Col. W. P. Walton will no longer be connected with that good paper. He leaves the newspaper business in favor of the insurance business. Col. Walton is a good writer and has many friends among the Newspaper men of the state.

At Coatesville Pa. Zachariah Walker a negro was carried from a hospital on a cot and burned to a crisp by a mob of men and boys. The negro had shot and killed a night watchman at the Worth Iron works and when about to be captured he used the last load in his mouth for which he was sent to the hospital.

On Sunday afternoon the New York Chicago flyer on the Pennsylvania R. R. was "side swiped" at Ft. Wayne Ind. by two freight engines after it had first left the track while running at the rate of fifty miles per hour. Two persons were killed, two are missing and over thirty injured.

Most of the Country Unit men did not attend the convention at the court house last Saturday, however the other crowd was there in full force and sent an un instructed delegation to Louisville.

DEMOCRATIC PLATFORM.

Upon Which James B. McCreary Will Be Elected Governor Of Kentucky In Next November.

The Democratic Platform Convention met in Louisville on Tuesday and was composed of representative men from every county in the state, who were sent there because of their peculiar fitness for the work expected and desired of them. That the platform is a splendid one, and one upon which the candidates will undoubtedly ride to success in November, no one doubts. The convention decided to retain in the platform the plank advocating the extension of the County Unit Bill by a vote of 637 in favor of the plank against 514 vs it, a majority of 153 in favor of the plank. The advocates of the extension of the law were led by Ex-Governor J. C. W. Beckham, while those against it were generally by Hon. Henry Watterson of the Courier Journal. Masterful speeches were made both for and against this plank, but the vote showed the above result, to which the anti submitted gracefully. We herewith print the platform as adopted in full:

Section 1—On National Issue. We the Democrats of Kentucky, in delegate convention duly assembled and held in the city of Louisville, Kentucky on August 15, 1911, do hereby pledge anew our faith in and devotion to the time-honored and eternal principles of our party first promulgated in the Declaration of Independence and since reaffirmed in successive platforms of the party, and we especially reaffirm our faith in and devotion to the national Democratic platform adopted at Denver, Colorado, in the year 1908.

Sec. 2—We denounce the Republican party and the present Republican President for their flagrant and willful betrayal of the trust reposed in them by the American people and call attention especially to the fact that they have willfully disregarded their pre-election promises to the effect that they would revise downward the unjust tariff system and would relieve the masses of the people of the heavy burdens of unjust and unnecessary taxation.

On the contrary the Republicans enacted the odious Payne-Aldrich tariff law of 1909, pronounced by Mr. Taft to be "the best Republican tariff law ever passed," which law was a gross breach of the Republican President and his political party. This tariff law in order to enrich the few, increased the burdens of the many, and authorized those favored few not only to continue, but to increase, their robbery of the many under the forms of law.

Sec. 3—We point with pride to, and heartily indorse the patriotic record made by the present Democratic members of Congress and Democratic Senators, in their efforts over determined Republican opposition to, in good faith redeem the promise of the Democratic party to repeal unjust and oppressive Republican laws, and to enact wise and just laws for the benefit of the great masses of the people, and we invite all to contrast the aims and record of the Democrats in the House and Senate of the present session of Congress with the aims and record of the Republicans and especially with the Republican session of 1909 which enacted the Payne-Aldrich law.

We especially indorse the record of our Democratic Congressmen and Senators from Kentucky for their fidelity in keeping the promises of their party and representing the people and not the interests, and we denounce the record of the Republican Congressmen and Senators from Kentucky, because they have represented not the people, nor have they sought to relieve their burdens, but have represented the

privileged, protected interests of the country.

Sec. 4—On State Issues, Kentucky is, and of right ought to be; a Democratic State, and the Democratic party in appealing for the support of the electorate of the State eagerly invites an intelligent comparison of the records it has made with those made by its political adversary during the temporary occasion it has controlled the affairs of the State.

As against the Republican record in Kentucky of assassination, bloodshed and disregard of law; we present the Democratic picture of peace, scrupulous regard for human life and a strict observance of and respect for law; as against an empty treasury and rejection and shaming of honest demands against the State, we present a picture of a magnificent State Capitol erected and paid for without any extra tax, and every just claim against the State promptly met and paid in full; as against platform pledges and promises broken and made to be broken, we present a record of all pledges and promises faithfully kept; as against hypocrisy, demagoguery and incompetency we present a record of sincerity, fidelity, competency and statesmanship.

We denounce the action of the Republican Governor for his partisan and unjust action in pardoning the men indicted for participation in the assassination of William Gobel, the Governor of our State, and we assert that those pardons were granted for political reasons, and not upon the merits of the cases.

We charge the Republican party both in the State and in the nation with gross extravagance and willful waste in the expenditure of the peoples money, and we pledge ourselves to retrenchment and reform, and to an economical business administration of public affairs.

Sec. 5—We are in favor of a direct primary election law, providing that all primary election shall be conducted under lawful authority and at public expense, and to be regulated in the same manner and subject to the same penalties for violations, as in case of regular elections.

Sec. 6—We favor the enactment of an explicit and effective corrupt practice act, which shall determine what campaign expenses shall be legitimate, and which shall provide for the compulsory publication in detail, under heavy penalties, of the campaign expenses of every candidate for public office.

Sec. 7—We favor the enacting of such additional laws as will make our entire common school system more efficient and more practical.

We pledge our support to our school system and the educational institutions of the state, wisely and economically administered. Money appropriated for the education of the people is an investment and not an expense; school trustees, school boards and all school officials should be held rigidly responsible for adequate returns on every dollar so invested. We charge the Republican party with neglect of and indifference toward our school system.

Recognizing that a large majority of the teachers of our common schools are women and that women are now eligible to be elected school trustees, county school superintendent, and to hold office, and are frequently to election, we favor the extension to women of suffrage in all school elections, subject to such wise regulations as the General Assembly may determine.

Sec. 8—We favor such laws as will, under appropriate penalties, destroy all corrupt lobbying seeking to influence any legislative body in the Commonwealth on the subject of legislation or the election of officers by it, or in any other matter; but we recognize the constitutional right of the people to petition and to be impartially heard on all questions.

Sec. 9—We favor, under wise and proper restrictions, the creation of a State Utilities Commission, having ample powers to discharge its duties.

Sec. 10—We favor a change in the present method of selecting the Prison Commissioners of the State, and the removal of all politics from the management of our penal institutions. While commending the present Board of Prison Commissioners for its successful management of the institution under which they are elected, is unwise and we therefore favor such a change as will place their appointments in the hands of the Governor, subject to confirmation by the Senate or some other method such as the General Assembly may provide.

Sec. 11—We favor a law requiring that a uniform system of accounting be installed and conducted in all public offices charged with the collection and disbursement of public moneys.

Sec. 12—We favor the General Assembly submitting to a vote of the people whether or not they desire to adopt an amendment of our State Constitution broadening the powers of the General Assembly, so that it may classify property for the purpose of taxation; but we are opposed to any law the effect of which would be to lighten burdens of taxation on the wealthy and on corporation at the expense of the poor, the farmer or the laboring man.

Sec. 13—Temperance is essentially a moral, non-political and social question, and should not be made a partisan issue between political parties.

We favor the extension of the present local option law, as applied to the sale of liquors, which has been upheld by our highest court as valid and constitutional, so that the citizens of each and every county in the State may determine for themselves whether spurious, vinous or malt liquors may be sold therein.

Sec. 14—We favor organization and cooperation, among the farmers and

laborers of the State, and the enactment of such constitutional laws as will protect them from the greed and oppression of the trusts and monopolies of the country, which are the direct fruit of Republican legislation.

Sec. 15—We favor such wise and conservative laws as will encourage road and bridge building in Kentucky, and we favor reasonable State aid for the construction of roads and bridges, but only on condition that each county or local community, which is primarily benefited, shall first do its part and discharge its duty to itself in this regard.

Sec. 16—We favor the creation, removed from politics of a Department of Banking, providing for competent inspection of all of our State financial institutions and similar to the system now existing for national banks.

Sec. 17—We favor the enactment of such wise laws as will put into effect all sections and provisions of the State Constitution, and we declare that we are in favor of the enforcement of all laws.

Sec. 18—We favor the enactment of wise laws for the protection from accident and injury of all laborers engaged in hazardous employments, and we favor a wise conservative law regulating the arbitration of labor strikes and disputes.

Sec. 19—We favor a law prohibiting peonage and female slave traffic regardless of color.

Sec. 20—We are opposed to all mobs and lynchings and we are in favor of imposing the severest penalty possible, under our Constitution on all officers who fail to protect prisoners intrusted to their keeping.

Sec. 21—The Democratic party has always been the party of religious as well as civil liberty in Kentucky and in the republic. It refers with pride to noble and consistent record on this important question, so "dear to every true American heart." We are in full accord, both in letter and in spirit, with the teachings of Thomas Jefferson, the founder of our party, on this question and with the provision of our State and Federal Constitutions, and we are unalterably opposed to raising any religious test as a qualification for holding any office in the State or nation.

Sec. 22—We favor the nomination and election of United States Senators by direct vote of the people.

Sec. 23—We denounce and are opposed to Cannonism or one-man power in all representative assemblies, whether it be in the Congress or in representative conventions. We favor the rule of the people.

Sec. 24—On the platform of principles and on the aims and purpose of our party in the State and in the Nation we appeal to all Kentuckians, irrespective of previous political affiliations, who are proud of the past and desire a still more prosperous, more progressive present and future, for all our people, to support our magnificent State ticket including our nominee for the United States Senatorship, and our nominee for General Assembly and for other offices.

Sec. 25—Conclusion. In conclusion we call the attention of Kentucky to the fact that Democratic principles are triumphant in the nation and in almost every State and that the Republican party everywhere is professing to adopt Democratic principles in its platform, but we warn them that the Republican's of this State have placed in their platforms some progressive Democratic doctrines, not with a view to carry them out or to attempt to carry them out in good faith, in the improbable event of their success at the polls next November, but only for the present purpose of catching votes and deceiving the people so that they may get the office and employments thereof. The broken promises of the present Republican State and National Administrations as well as the entire history of the Republican party is sufficient to convince all fair-minded citizens of the insincerity of the Republican party, and that it is not the party of the people; while on the other hand, the record and history of the Democratic party in the nation and the State conclusively establish its devotion to duty and its purpose in good faith to redeem all platform pledges made to the people.

Kirby Family With Sangers Combined Shows.

There are many novel acts with the Sangers Combined Shows which are certain to be well received in every city lucky enough to secure a visit from the consolidated enterprises. There are acts which were never seen in America until this show opened its season of 1911, for the reason that there was no amusement enterprise great enough to afford the large salaries which the artists demand and no institution with sufficient prestige to attract the attention of such celebrated performers.

The Kirby Family of acrobats, for instance, perform feats which have never been seen in other shows.

The Sangers Combined Shows will exhibit in Lancaster, Saturday August 26.

The Lexington Herald has the following complimentary notice of a popular Lancaster young lady, "Misses Anne and Margaret Millerard gave a beautiful dinner Saturday evening at the Country Club to their guest Miss Annie Tindler of Lancaster. It was one of a number of affairs in Miss Tindler's honor." Messrs Ben and Murray Robinson of this place were so in the list of invited guests.

The following announcement will be of much interest to Lancastrians as the bride-elect has a number of relatives in Garrard and has frequently visited her cousin's Mesdames J. Fleece Robinson and B. D. Herndon.

One of the most beautiful affairs of the week was the announcement party at Cambus Kenneth by Miss Lillie Cecil. The color scheme of green and crystal was carried out in all the decorations. The table was a bower of maiden hair fern, hanging from the chandelier was a basket of white pond lilies tied with green tulle. Twelve crystal vases tied together with crystal chains of maiden hair was around the table. At the coffee drinking course Miss Cecil raised her cup and announced that her little blonde friend Miss Cerena Dunn and Dr. Oscar L. May a rising young physician of Danville were soon to wed.

CATARRH

Cured by the Marvel of the Century, B. B. B.—Tested for 30 Years.

Hawking, spitting, foul breath, discharges of yellow matter permanently cured with pure botanical ingredients. To prove it we will send you a sample treatment free.

Catarrh is not only dangerous but it causes ulcerations, death and decay of bones, kills ambition, often causes loss of appetite and reaches to general debility, idiocy and insanity. It needs attention at once. Cure it by taking Botanic Blood Balm (B. B. B.) It is a quick, radical, permanent cure because it rids the system of the poison germs that cause catarrh. At the same time Blood Balm (B. B. B.) purifies the blood, does away with every symptom of catarrh. B. B. B. sends a tingling flood of warm, rich, pure blood direct to the paralyzed nerves, and parts affected by catarrhal poison, giving warmth and strength just where it is needed and in this way making a perfect, lasting cure of catarrh in all its forms. Druggists or by express, \$1 per large bottle, with directions for home cure. Sample sent free by writing Blood Balm Co., Atlanta, Ga. Describe your trouble and free medical advice given. Sold by F. P. Frisbie. 1m

The method is not a necessary adjunct to the best hog pasture. The sanitary wallow that disinfects the hogs is the logical thing.

It is conceded that Mississippi had the finest prospect for full crops of corn, peas, potatoes, cane etc., every seen at the end of July.

R. L. Hubble bought a pair of work mules from Bob Arnold for \$125. He also bought a pair of Johnson Price for \$150, and another from Price Bros. at the same price.

The B. M. Fisher farm two miles from Danville on the Perryville pike and containing 200 acres, was sold at public outcry last week and was purchased by Mr. George Spilman for \$147. per acre.

J. B. Walker of Richmond shipped recently to C. S. Brent Lexington 10,000 bushels of blue grass seed, that had been purchased in Madison county at prices ranging from \$1.50 to \$1.60 per bushel.

Mule dealers say that the market is not so good for aged mules as at this time last year, but that the prospects are that it will be better, and that the indications are that mule colts will be higher this year than last.

If you have a balky horse don't beat him, or build a fire under him; get out and tie a piece of spring around his tongue and fasten it to the bit and you will be surprised to see how quick his mind is taken off of the balky habit.

Alfalfa seems to be a success in this country as well as in the West. Mr. W. P. Givens of Boyle has a third crop

on his place now which is eighteen inches high and he expects to cut it and another crop off the same land before the coming of cold weather. His first crop this season brought him \$15. per acre, and the second crop is yet unsold. Alfalfa is deep rooted and withstands the drought more than any other kind of grass.

Good Colored Boy Hurt.

Oliver Adams, a colored youth who lives at the home of Mr. George Smith is lamenting the loss of the nail and ball of one finger which he contributed to a cider mill on Wednesday.

Improving Garrard's Turnpikes.

The county machinery is now at work on the Richmond pike, they have completed the repaving as far as Hyattsville and will finish up to the county line at Paint Lick on that road. The manner of treating the turnpikes turn them into a veritable boulevard, and when the pikes of Garrard county are worked over by this system, which is being done as rapidly as possible, they will be second to none in the state.

A King Who Left Home.

set the world talking, but Paul Mathulka, of Buffalo, N. Y. says he always KEEPS AT HOME the King of all Laxatives—Dr. King's New Life Pills—and that they're a blessing to all his family. Cure constipation, headache, indigestion, dyspepsia. Only 25c at R. E. McRoberts & Son. 1m

Organizing Farmer's Union.

Mr. E. J. Cook, deputy organizer for the Farmers Union, has been at work in the county recently organizing subordinate bodies of his organization. The Union is strictly a business organization, having for its object the teaching of the farmer diversification and rotation of crops, systemization in the distribution and disposition of his crops, to eliminate gambling in farming products, in fact its aim is to do any and all things that will be of benefit to the farmer. The organization is a growing one throughout the state, and is calculated to do much good among the farming element.

Thirty Years Together.

Thirty years of association think of it. How the merit of a good thing stands out in that time—or the worthlessness of a bad one. So there's no guess work in this evidence. Thos. Ariss, Concord, Mich., who writes: "I have used Dr. King's New Discovery for 30 years, and it's the best cough and cold cure I ever used." Once it finds entrance in a home you can't pry it out. Many families have used it forty years. It's the most infallible throat and lung medicine on earth. Unequaled for laryngitis, asthma hay-fever, croup, quinsy or sore lungs. Price 50c, \$1.00 Trial bottle free. Guaranteed by R. E. McRoberts & Son.

The Little White Hearse.

By Ella Wheeler Wilcox.
(Copyright, 1906.)
Somebody's baby was buried to-day
The empty white hearse from the grave rumbled back,
And the morning somehow seemed less smiling and gay
As I passed on the walk while it crossed
on its way.
And a shadow seemed drawn o'er the sun's golden track.
Somebody's baby was laid out to rest,
While as a snowdrop and fair to behold;
And the soft little hands were crossed over the breast,
And those hands and the lips and the eyelids were pressed
With kisses as hot as the eyelids were cold.
Somebody saw it go out of her sight,
Under the coffin-lid, out through the door;
Somebody finds only darkness and blight
All through the glory of Summer-sun light—
Somebody's baby will wake no more
Somebody's sorrow is making me weep
I know not her name, but I echo the cry,
For the dearly bought baby she longed so to keep—
The baby that rode to its long, lasting sleep.
In the little white hearse that went rumbling by
I know not her name, but her sorrow I know;
While I paused on the crossing I lived it once more,
And back to my breast surged that river of woe
That but in the breast of a mother can flow
For the little white hearse had been, too, at my door.

Her hand was always outstretched to those in need, the community sustains a great loss, much sympathy is extended to her grief stricken husband. She expressed her self ready for the summer funeral conducted by Rev. H. J. Tomlinson burial at Mt. Olivet.

Attack Like Tigers.

In fighting to keep the blood pure the white corpulent attack disease germs like tigers. But often germs multiply so fast the little fighters are overcome. Then see pimples, boils, eczema, salt rheum and sores multiply and strength and appetite fail. This condition demands Electric Bitters to regulate stomach, liver and kidneys and to expel poisons from the blood. "They are the best blood purifier," writes C. T. Buddin, of Tracy, Calif. The Little White Hearse.

By Ella Wheeler Wilcox.
(Copyright, 1906.)
Somebody's baby was buried to-day
The empty white hearse from the grave rumbled back,
And the morning somehow seemed less smiling and gay
As I passed on the walk while it crossed
on its way.
And a shadow seemed drawn o'er the sun's golden track.
Somebody's baby was laid out to rest,
While as a snowdrop and fair to behold;
And the soft little hands were crossed over the breast,
And those hands and the lips and the eyelids were pressed
With kisses as hot as the eyelids were cold.
Somebody saw it go out of her sight,
Under the coffin-lid, out through the door;
Somebody finds only darkness and blight
All through the glory of Summer-sun light—
Somebody's baby will wake no more
Somebody's sorrow is making me weep
I know not her name, but I echo the cry,
For the dearly bought baby she longed so to keep—
The baby that rode to its long, lasting sleep.
In the little white hearse that went rumbling by
I know not her name, but her sorrow I know;
While I paused on the crossing I lived it once more,
And back to my breast surged that river of woe
That but in the breast of a mother can flow
For the little white hearse had been, too, at my door.
